✨ **GLOWAMOUR — Instagram Business Playbook 4**

- 🚀 START HERE — My #1 Recommendation (copy-paste ready) 4
- 📂 Full Playbook 5
- ❓ 7 Questions I Need From You (to finalize claims + links) 5
- ✅ Do This Today (15 minutes) 6

01 — Complete Instagram Profile Setup for GLOWAMOUR 7

- 1. Username — What to choose, why, how 7
- 2. Display Name / Name Field — Your #1 SEO lever 7
- 3. Bio — 150 characters that convert visitor → follower → buyer 8
- 4. Logo / Profile Photo — Requirements 9
- 5. Category — Which to select 10
- 6. Contact Buttons + Business Info 10
- 7. Links — Website / Store / Ordering 10
- 8. Call-to-Action (CTA) Strategy 11
- 9. Account Type + Professional Settings 11
- 10. Discoverability Settings That Actually Help 12
- ✅ Done Checklist for File 01 12

02 — Instagram SEO & Keyword Strategy for GLOWAMOUR 13

- A. Keyword Bank — Copy-Paste Ready 13
- B. Where to Place Keywords (Naturally, No Stuffing) 14
- C. Hashtag System (No Spam) 15
- D. Caption SEO Template (use for every post) 15
- E. What to AVOID (hurts trust + discovery) 16
- ✅ Done Checklist for File 02 16

03 — Profile Layout, Pinned Posts & Trust System for GLOWAMOUR 17

- 1. Grid Layout — What a visitor should see 17
- 2. Story Highlights — Your Shop + Help Desk (9 Highlights) 18
- 3. Trust Checklist — What you MUST publish (and what's missing) 19
- ✅ Done Checklist for File 03 20

04 — Target Audience + Algorithm + Content Strategy for GLOWAMOUR 21

- PART A — Target Audience Research (India-first, Gujarat-focused) 21
- PART B — Instagram Algorithm & Organic Growth (Simple English) 22
- PART C — Content Strategy (Balances Reach + Trust + Sales) 24

05 — 30-Day Low-Budget Content Plan for GLOWAMOUR 26

- WEEK 1 — Launch + Clarity (Goal: profile understands you) 26
- WEEK 2 — Education + Trust (Goal: saves + shares from non-followers) 27
- WEEK 3 — Desire + Ordering (Goal: profile visits → DMs) 27
- WEEK 4 — Proof + Next Product (Goal: trust flywheel + waitlist) 28
- Repurposing Map (1 shoot = 5 assets) 29
- Hooks Bank (first 2 seconds — swap to revive weak posts) 29

06 — Analytics, Diagnosis & Prioritized Implementation Checklist 30

PART A — How to Use Instagram Insights (Simple English) 30
PART B — Diagnose + Fix (No Guesswork) 31
PART C — PRIORITIZED IMPLEMENTATION CHECKLIST 31
What You Can Do Immediately vs Needs Research/Access/Testing 33
Final Note — How I Worked (per your rules) 33

✨ GLOWAMOUR — Instagram Business

Playbook

Goal: Turn Instagram into a discoverable, trustworthy, sales-focused channel for GLOWAMOUR Night Cream (+ upcoming Kesar Goti Soap) in India / Gujarat / Ahmedabad.

What this repo is: Your complete, ready-to-implement Instagram setup — username, display name, bio, SEO keywords, profile layout, trust system, audience plan, content plan, and measurement checklist.

> No fake followers, no hacks, no guaranteed virality. Only current Instagram features + practical SEO + trust-building that converts visitors → followers → WhatsApp/DM inquiries → customers.

🚀 START HERE — My #1 Recommendation (copy-paste ready)

1. Username (pick first available in this order)

1. `@glowamour` ← strongest if available
2. `@glowamour.in` ← **BEST BET for an Indian brand** (recommended default)
3. `@glowamour.skincare`
4. `@myglowamour`
5. `@glowamourindia`

How to verify: Instagram App → Search → type each option → if "No results" + you can claim it in `Edit Profile > Username` (green tick = available). Also check identical spellings on Facebook/YouTube for consistency. Do NOT add extra dots/underscores/numbers unless needed.

2. Display Name / Name Field (64 characters, SEARCHABLE)

Recommended (copy-paste):

```
GLOWAMOUR | Night Cream for Glowing Skin
```

45 characters. Includes brand + high-intent product keyword.

Alternatives:

- `GLOWAMOUR | Kesar Night Cream India` (if kesar is hero ingredient — confirm)
- `GLOWAMOUR Skincare | Ahmedabad • India`
- Gujarati-inclusive: `GLOWAMOUR | Night Cream for Glowing Skin India`

> Why it matters: Instagram Search matches words in Name + Bio + Captions. "Night Cream" + "Glowing Skin" are what buyers actually type.

3. Bio (150 characters max) — Recommended Option A

```
✨ Night Cream for Daily Glow
🇮🇳 Made for Indian Skin | Ahmedabad
💬 Order on WhatsApp / DM "GLOW"
👇 Tap to Shop ↓
```

- Links (up to 5): `WhatsApp Order` / `Shop / Price List` / `How to Use` / `Reviews` / `Kesar Soap Waitlist`

Option B (more SEO):

```
GLOWAMOUR Skincare India
Night Cream for Dark Spots & Dull Skin
COD Available | DM to Order
👇 WhatsApp Us:
```

Option C (Gujarati-friendly):

```
✨ GLOWAMOUR Night Cream
Daily Glow • Made in India 🇮🇳
Ahmedabad | Gujarati Support Available
DM "GLOW" to Order 👇
```

Full bio bank + category + buttons + links + settings → `glowamour/01-profile-setup.md`

📂 Full Playbook

File	What you get
glowamour/01-profile-setup.md	Username, display name, bio options, logo specs, category, contact buttons, links, CTA, Business vs Creator, all settings step-by-step
glowamour/02-seo-keyword-bank.md	Complete keyword bank: high-intent buying vs discovery vs educational, Gujarat/Ahmedabad/Gujarati keywords, where to place them (name, bio, captions, covers, alt text, hashtags)
glowamour/03-trust-layout-highlights.md	Profile layout, 3 pinned posts, 9 Highlights with exact Stories to add, trust checklist, what NOT to claim

glowamour/06-analytics-checklist.md	Insights metrics, how to diagnose + improve, prioritized implementation checklist

---

❓ 7 Questions I Need From You (to finalize claims + links)

I built you a complete plan WITHOUT assuming these. Reply with answers and I'll tighten bios/captions:

1. **Hero ingredient?** Is your night cream kesar-based / ayurvedic / natural? Full ingredient list?
2. **Price + sizes?** MRP, offer price, COD available? Shipping cities + charges?
3. **Skin types?** For all skin types? Oily/dry/sensitive? Men/women? Age group?

4. **How to order?** WhatsApp number? Website/Meesho/Amazon/own store link?

5.. **Current Instagram?** Do you already have a handle? If yes, share it. If no, I'll guide fresh setup.

6. **Proof assets?** Do you have real product photos, unboxing video, before/after (with permission), customer chats to screenshot (with permission)?
7. **Language?** Should captions be English only, or English + Hindi/Gujarati mix? Can you reply in Gujarati on WhatsApp?

> Until you confirm, I have NOT written any "removes dark spots in 7 days", "dermatologist certified", or "1000+ happy customers" claims. We will only publish what you can prove.

✅ Do This Today (15 minutes)

1. Create/switch to **Business Account** → Category: `Beauty, Cosmetics & Personal Care` → Public + Show contact buttons.
2. Set Username → Display Name → Bio (Option A above) → Add WhatsApp link.
3. Upload logo (1080×1080, safe circle crop) — specs in File 01.
4. Create 3 Highlights shells: `Shop` 🛍️ / `How to Use` ✨ / `FAQs` ❓ (fill content this week per File 03).
5. Post first Reel: "What GLOWAMOUR Night Cream is + who it's for + how to order" — script in File 05, Day 1.

Full ordered checklist → `glowamour/06-analytics-checklist.md`

01 — Complete Instagram Profile Setup for GLOWAMOUR

> How to read this file: **Confirmed Instagram guidance** = Instagram officially says this. **Expert recommendation** = what works for Indian skincare brands + my judgment for GLOWAMOUR. **Assumption to test** = try and measure.

1. Username — What to choose, why, how

What Instagram says (Confirmed):

- Username is unique, max 30 characters, only letters, numbers, periods (.) and underscores (_).
- It's part of your URL: `instagram.com/glowamour.in`
- You can change it anytime in `Edit Profile > Username`. Old handle becomes free for others.

Expert recommendation for GLOWAMOUR — try in this order:

1. `@glowamour` — shortest, strongest brand. Likely taken, but try first.
2. `@glowamour.in` — **RECOMMENDED DEFAULT.** Signals India, looks professional, easy to say in Reels: "Follow Glowamour dot in".
3. `@glowamour.skincare` — good for SEO clarity if .in is taken.
4. `@myglowamour` — brandable alternative.
5. `@glowamourindia` — last resort (longer but clear).

Avoid: `@glowamour_123`, `@glowamour_ahmedabad_official__`, extra dots/underscores, "official" unless you have fakes to fight.

How to verify availability (2 min):

1. Instagram App → 🔍 Search → type `@glowamour.in` — if no account appears, it *may* be free.
2. Go to your profile → `Edit Profile > Username` → type it → **green tick = available, red = taken.**
3. If creating new: on signup screen, Instagram tells you instantly.
4. Also check: Facebook Page name, YouTube handle, and domain `glowamour.in` for future website consistency (use a registrar search, don't buy yet unless you want to).

Why it matters: Short + memorable + consistent everywhere = people can find you from packaging, WhatsApp, word-of-mouth. SEO weight is smaller than Display Name, but clarity matters for trust.

2. Display Name / Name Field — Your #1 SEO lever

Confirmed: The Name field (top bold line, up to 64 characters) IS searched by Instagram. Keywords here help you appear for "night cream", "skincare india", etc.

Recommended (copy-paste):

```
GLOWAMOUR | Night Cream for Glowing Skin
```

Why this wins:

- Brand first (recognition) + what you sell + desired result.
- Matches what buyers type: “night cream”, “glowing skin”, “night cream for glowing skin”.
- 45/64 chars — leaves room to add “India” later.

Alternatives by situation:

- If kesar is hero + confirmed: `GLOWAMOUR | Kesar Night Cream India` (differentiates from 1000s of night creams)
- If you want local trust: `GLOWAMOUR Skincare | Ahmedabad • India`
- If soap launches soon: `GLOWAMOUR | Night Cream & Kesar Soap`
- Gujarati-inclusive (keep English for search, add city): `GLOWAMOUR | Night Cream India – Ahmedabad`

What NOT to do:

- Don’t stuff: `GLOWAMOUR Night Cream Glowing Skin Beauty Ahmedabad Gujarat Kesar Soap Offer COD` = spammy, hurts trust, no proven ranking boost.
- Don’t use only `GLOWAMOUR` — you waste searchable space.
- Don’t change it weekly. Instagram needs stable signals. Change max 1x/month.

How to set: Profile → `Edit Profile > Name` → paste → Done.

---

3. Bio — 150 characters that convert visitor → follower → buyer

Confirmed: Bio is searchable (keywords), 150 chars max, line breaks allowed, 1-2 emojis help scanning (not ranking). You can add up to 5 external links + social links.

Simple English: Bio = your shop board. In 3 seconds visitor must know: What? For whom? Why trust? How to buy?

Recommended Bio A — Clean + Sales-focused (USE THIS FIRST)

```
✨ Night Cream for Daily Glow
🇮🇳 Made for Indian Skin | Ahmedabad
💬 Order on WhatsApp / DM “GLOW”
👇 Tap to Shop ↓
```

Count: ~118 chars. Leaves room.

Bio B — SEO-heavy (if you want more keyword hits)

```
GLOWAMOUR Skincare India
Night Cream for Dull Skin & Dark Spots
COD Available | DM to Order
👇 WhatsApp Us:
```

Use ONLY if “dark spots” is a real, supportable use-case per your ingredients/packaging. Don’t promise removal/lightening unless you have evidence. Safer: “for dull-looking skin”.

Bio C — Gujarati-friendly trust

```
✨ GLOWAMOUR Night Cream
Daily Glow • Made in India 🇮🇳
Ahmedabad | Gujarati Support Available
DM “GLOW” to Order 👇
```

Bio D — When Kesar Soap launches (future)

```
✨ Night Cream + Kesar Goti Soap
Simple Night Routine for Glow
🇮🇳 Ahmedabad | COD | DM “GLOW”
👇 Shop Below:
```

Bio rules:

- Line 1 = WHAT (product + benefit)
- Line 2 = WHO/WHERE (Indian skin, Ahmedabad = trust + local SEO)
- Line 3 = HOW TO BUY (WhatsApp/DM + keyword “GLOW” for auto-reply filtering)
- Line 4 = Pointer to links (👇 increases taps — expert recommendation, not Instagram-confirmed ranking factor)

How to set: `Edit Profile > Bio` → paste with line breaks → Save.

---

4. Logo / Profile Photo — Requirements

Confirmed specs:

- Displays as circle everywhere. Upload square, min 320×320 px. Instagram compresses.
- JPG or PNG. Keep important art in center 70% (edges get cropped).

Expert recommendation for GLOWAMOUR:

- **Best:** Wordmark “GLOWAMOUR” or “GA” monogram on solid background (deep maroon / emerald / soft gold — premium skincare feel). High contrast, readable at 40px small size.
- **Do:** 1080×1080 PNG, centered, 150px padding all sides, test on dark + light mode.
- **Don’t:** Full product bottle photo (unreadable when small), busy lifestyle image, tiny tagline text, white-on-cream low contrast.
- **Consistency:** Use SAME logo on Instagram, WhatsApp DP, packaging sticker, parcel tape. Recognition = trust.

How to check: Upload → view profile on another phone → can you read it in comments + Stories circle? If not, simplify.

Missing info: If you don’t have a logo yet, use clean text on solid color temporarily (Canva free: 1080×1080 → bold font → export PNG). Don’t delay launch for perfect branding.

---

5. Category — Which to select

Confirmed: Business/Creator accounts choose a Category shown under Name (e.g., "Beauty, Cosmetics & Personal Care"). Helps Instagram understand your business + enables relevant contact buttons.

Recommended:

- **Primary:** `Beauty, Cosmetics & Personal Care` (broadest, matches skincare sellers)
- **Alternative if not available in your app version:** `Skin Care Service` or `Health/Beauty`
- Display ON profile (shows credibility) — toggle in `Edit Profile > Profile Display > Display category label = ON`.

How to set: `Edit Profile > Category` (or `Settings > Business tools > Category`) → search "Beauty" → select → Save.

---

6. Contact Buttons + Business Info

Confirmed: Business accounts can add Email, Phone, WhatsApp, Location, Hours + action buttons.

Recommended for GLOWAMOUR (priority order):

1. **WhatsApp Button:** `Edit Profile > Contact Options > WhatsApp` — link your business WhatsApp number. This is your #1 sales channel in India. Label shows "WhatsApp".
2. **Phone/Call (optional):** Only if you can answer 10am-8pm. Otherwise skip — missed calls hurt trust.
3. **Email:** `care@glowamour.in` or Gmail temporarily (e.g., `glowamourcare@gmail.com`). Use for order issues.
4. **Location:** `Ahmedabad, Gujarat, India` — helps Map search + local trust. Use area (e.g., "Ahmedabad") not full home address for privacy.
5. **Hours:** e.g., `Mon-Sat, 10am-8pm IST` — sets reply expectations.

Why: Indians buy via chat. Every extra tap loses buyers. WhatsApp button + DM keyword + link = 3 easy paths.

---

7. Links — Website / Store / Ordering

Confirmed (2024-2026): You can add up to 5 links + a Facebook link in `Edit Profile > Links`. First link gets most taps. You can title each link. No need for Linktree if you use native links (faster, free, trusted).

Recommended link stack for GLOWAMOUR (no website needed to start):

1. **Title:** 🛍️ `Order on WhatsApp (Fastest)` → Link: `https://wa.me/91XXXXXXXXXX?text=Hi%20GLOWAMOUR!%20I%20want%20to%20order%20Night%20Cream%20(GLOW)` — replace number. Pre-filled text increases orders.
2. **Title:** 💰 `Price, Sizes & COD Info` → Link: WhatsApp catalog link OR a free Google Doc / Notion page with price list, sizes, shipping, COD, return policy. (Until you have a website.)
3. **Title:** ✨ `How to Use Night Cream` → Link: Link to your "How to Use" Reel OR Highlights cover? Actually links must be URLs — so link to a pinned post? Workaround: create a free page or just point to Highlights in bio text. If no page, use: `FAQs & Reviews` → Google Drive folder / Instagram Guide.
4. **Title:** ☆ `Customer Reviews` → Same page section or a Highlights deep-link workaround: use a simple

Carrd/Linktree-free page later.

5. **Future:** 🧼 `Kesar Soap Waitlist` → Google Form to collect interest.

If you get a website/Meesho/Amazon later: Keep WhatsApp as Link #1 (highest conversion for new brands), Shop as #2.

Link hygiene: Use short, clean URLs. Test every link monthly. Never link to a personal Facebook or empty page.

Missing info needed: WhatsApp number, price list, COD + shipping policy. Without these, links can't convert.

---

8. Call-to-Action (CTA) Strategy

Simple English: CTA = telling visitor exactly what to do next. Confused visitor = no sale.

Primary CTA (everywhere): `DM "GLOW" or Tap WhatsApp to Order`

- Why "GLOW"? Easy to remember, easy to filter/search in DMs, works in Gujarati/Hindi/English.

Secondary CTAs by place:

- Bio → 👇 `Tap to Shop`
- Reels caption last line → `DM "GLOW" for price + COD details` / `Comment "GLOW" and we'll DM you`
- Stories → Poll + `Tap WhatsApp button to order`
- Highlights covers → `Shop` 🛍️
- Pinned posts → `Read caption for price + how to order`

Rules:

- ONE primary CTA per post/Reel. Don't say "Follow, like, share, comment, DM, click link, tag 3 friends" at once.
- For selling posts: CTA = order. For educational posts: CTA = save/share/follow. Alternate.
- Reply to ALL "GLOW" comments/DMs within 2-4 hours in business hours (early-stage trust builder).

---

9. Account Type + Professional Settings

Confirmed options:

- **Personal:** No Insights, no contact buttons, no ads.
- **Creator:** Insights, growth tools, flexible category, best for influencers.
- **Business:** Insights, contact buttons, location/hours, shopping features, ads, WhatsApp button, auto-replies via Meta Business Suite. ← **CHOOSE THIS for GLOWAMOUR.**

xHy cH (ydc.7 2Dubb0 b1bu(dPTb6 `Profile → ≡ Menu → Settings and privacy → Account type and tools → Switch to Professional Account → Choose "Business" → Category: Beauty, Cosmetics & Personal Care → Done.`

Key settings checklist:

- [ ] Account = **Public** (Private kills discovery + Reels distribution — Confirmed).
- [ ] `Settings → Business tools → Contact options` = filled.

- [ ] Connect Facebook Page (optional but enables ads + crossposting + backup if IG locked). Create FB Page "GLOWAMOUR" even if you don't post there.
- [ ] `Settings → Privacy → Tags/Mentions` = Allow tags from everyone initially (social proof), review manually if spam.
- [ ] `Settings → Suggested content / Sensitive content` = leave default; don't restrict.
- [ ] `Edit Profile → Profile Display` = Show Category ON.
- [ ] Enable 2-factor auth + backup codes (business protection).
- [ ] Add backup admin email/phone. Don't share password with freelancers — use Meta Business Suite roles later.

---

10. Discoverability Settings That Actually Help

Confirmed to help:

- Public account + Business category + Location (Ahmedabad) + Keywords in Name/Bio/Captions + Location tags on posts/Reels + Alt text + Consistent posting.
- People can find you via Search, Explore, Reels feed, Hashtags, Location pages, and "Suggested for you".

Expert recommendations (not ranking guarantees):

- Add `Ahmedabad, Gujarat` location to 70% of posts/Reels (local discovery).
- Write captions in English + 1-2 lines Hindi/Gujarati mix where natural (e.g., "Daily night routine for glowing skin ✨ | रोज़ रात को लगाएँ | દરરોજ રાત્રે લગાવો"). Don't auto-translate everything — keep it human.
- Turn on `Advanced Settings > Write Alt Text` on every feed post (accessibility + extra keyword context).
- Crosspost Reels to Facebook (toggle ON) for extra free reach in Gujarat audiences.
- Keep handle + Name stable for 30-60 days after setup so Instagram learns your topic.

What does NOT help (avoid):

- Private account, keyword stuffing, 30 irrelevant hashtags (#love #instagood #followme), buying followers, engagement pods, "DM for collab" spam, watermarked reposts from Moj/TikTok (Instagram deprioritizes visible watermarks — Confirmed).

✅ Done Checklist for File 01

- [ ] Username claimed + consistent
- [ ] Display Name = `GLOWAMOUR | Night Cream for Glowing Skin`
- [ ] Bio A pasted + links added + tested
- [ ] Logo 1080×1080, readable when small
- [ ] Category = Beauty, Cosmetics & Personal Care, displayed
- [ ] WhatsApp + Email + Ahmedabad location + hours set
- [ ] Business account, Public, 2FA ON
- [ ] First 3 Highlights shells created (see File 03)

02 — Instagram SEO & Keyword Strategy for GLOWAMOUR

> Simple English: Instagram SEO = writing the words your buyer already types, in the places Instagram actually reads — so the right people find you in Search, Explore, and Reels suggestions.

Confirmed Instagram guidance (as of 2025-2026):

- Instagram Search looks at: Name field, Bio, Captions, Hashtags, Location, and topic understanding from text/audio.
- Captions ARE searchable — write descriptive captions with natural keywords, not just emojis.
- Hashtags help categorize, but Instagram (Adam Mosseri) says 3-5 relevant hashtags > 30 generic ones.
- Alt text helps accessibility + context. Location tags help local discovery.
- No guaranteed ranking. Relevance + engagement + relationships matter more than stuffing.

A. Keyword Bank — Copy-Paste Ready

1) HIGH-INTENT BUYING Keywords (person wants to BUY — use in Name, Bio, shop posts, WhatsApp links)

Goal: inquiries + sales. Highest priority.

English:

- night cream, best night cream india, night cream for glowing skin, night cream for dull skin, night cream for dark spots, night cream for dry skin, night cream for oily skin, night cream for daily use, herbal night cream, ayurvedic night cream (only if true), kesar night cream, saffron night cream, night cream online india, night cream COD, skincare products india, buy night cream online, night cream price india

Hinglish / Roman (how Indians actually search/speak):

- glowing skin ke liye night cream, dark spots ke liye cream, dull skin ke liye best cream, daily glow cream, shaadi se pehle glow cream, night me lagane wali cream, COD available skincare

Gujarat / Local:

- night cream ahmedabad, skincare ahmedabad, beauty products gujarat, skincare gujarat, ahmedabad skincare store online

Gujarati (use in captions + on-screen text + hashtags, not necessarily Name field):

- નાઈટ ક્રીમ (night cream), ગ્લોઈંગ સ્કિન માટે ક્રીમ (cream for glowing skin), ડાઘ માટે ક્રીમ, કેસર સાબુ (kesar soap), કેસર ગોટી સાબુ (kesar goti soap), દરરોજ રાત્રે લગાવો (apply every night), ચમકતી ત્વચા (glowing skin)

> Use Gujarati script sparingly + always with English transliteration so Search + non-Gujarati readers still understand. Example: `Kesar Goti Soap (કેસર ગોટી સાબુ) – coming soon` 🧼

2) DISCOVERY Keywords (person exploring routines/products — use in Reels, carousels, covers)

- night skincare routine, night skincare routine india, simple night routine, skincare routine for beginners, glass skin routine india, glowing skin tips, winter skincare india, summer skincare oily skin, skincare for working women, bridal skincare routine, pre-bridal glow tips

3) EDUCATIONAL / CONCERN Keywords (person has a problem — use in FAQ, How-to, Myth-busting)

- dull skin causes, dark spots vs pigmentation, open pores, uneven skin tone, dry patches, how to apply night cream, how much night cream to use, night cream vs moisturizer, can oily skin use night cream, how long to see glow, patch test how to

4) BRAND Discovery Keywords (people finding YOU specifically)

- glowamour, glowamour night cream, glowamour skincare, glowamour india, glowamour ahmedabad, glowamour kesar soap, glowamour review, glowamour price, glowamour how to use

Keep a running list: Every time a customer asks a question on DM/WhatsApp, add their exact words to this bank. Their words = your next Reel title.

B. Where to Place Keywords (Naturally, No Stuffing)

Place	What to do	Example for GLOWAMOUR
Username	Brand only, no stuffing	@glowamour.in
Display Name	Brand + 1 product + 1 benefit	GLOWAMOUR | Night Cream for Glowing Skin
Bio	2-3 keywords max, human sentence	Night Cream for Daily Glow / Made for Indian Skin
Reel/Post Caption (first 2 lines = most important)	Hook + keyword in first sentence. Full keyword phrase once.	My simple night skincare routine for glowing skin with GLOWAMOUR Night Cream ✨ ...
Reel Cover Text (3-5 words)	Big, readable, keyword-rich	Night Cream for Dull Skin / Daily Glow in 2 Mins
On-screen video text / Spoken audio	Say + show keyword (IG understands audio/topic)	Say: "This is how I apply night cream for oily skin..." + text overlay same
Alt Text	Describe image + 1 keyword	Close-up of GLOWAMOUR night cream jar for glowing skin on pink background
Hashtags (3-5)	1 brand + 2 niche + 1 local + 1 broad	#Glowamour #NightCreamIndia #GlowingSkinTips #AhmedabadSkincare #SkincareIndia
Location Tag	Add on 70% posts	Ahmedabad, Gujarat

Place	What to do	Example for GLOWAMOUR
Highlights Titles	Keyword titles	Night Cream ✨ How to Use Reviews ☆ FAQs ❓ Shipping 🚚
Stories Text	Keyword stickers/text (also searchable in Highlights)	Today: How much night cream to use?

C. Hashtag System (No Spam)

Confirmed: Hashtags categorize content. Irrelevant/generic hashtags don't help and can attract wrong audience.

GLOWAMOUR sets — rotate, don't copy-paste same 30:

Set 1 — Product / Sales posts: `#Glowamour #NightCreamIndia #SkincareIndia #AhmedabadSkincare #CODAvailable`

Set 2 — Educational Reels: `#NightSkincareRoutine #GlowingSkinTips #SkincareForBeginners #IndianSkincare #SkincareGujarat`

Set 3 — Local / Trust: `#Ahmedabad #AhmedabadShopping #GujaratBusiness #MadeInIndia #SupportSmallBusinessIndia`

Set 4 — Kesar / Natural (only if true): `#KesarSkincare #SaffronSkincare #AyurvedicSkincare #NaturalSkincareIndia #HerbalSkincare`

Set 5 — Gujarati-inclusive: `#Glowamour #NightCream #GlowingSkin #Ahmedabad #Gujarat` + in-caption Gujarati line (hashtags in Gujarati script have low search volume — expert observation — so keep hashtags English, captions bilingual).

Rules:

- 3-5 per post/Reel, in caption (not hidden in comments — no benefit).
- Never: `#love #instagood #viral #followforfollow #explorepage` — attracts random followers, hurts conversion.
- Create + use brand hashtag: `#Glowamour` + `#MyGlowamour` (ask customers to use it for reposts with permission).
- Check each hashtag: tap it → if top posts are spam/irrelevant, don't use it.

D. Caption SEO Template (use for every post)

```
[HOOK + keyword in line 1 — before "...more"]
[2-3 lines value / story / how-to]
[Product detail: who it's for, how to use, price hint]
[CTA: DM "GLOW" / Comment "GLOW" / Tap WhatsApp]
.
[Keywords naturally woven, not list]
[3-5 hashtags]
```

Example — Sales Reel:

```
Night cream for glowing skin — my 2-minute routine with GLOWAMOUR ✨
I apply a pea-sized amount every night after face wash. No 10-step routine.
Made for Indian skin. Ahmedabad-based. COD available.
DM “GLOW” for price + to order 💬
.
Night skincare routine India | simple night routine | night cream online India
#Glowamour #NightCreamIndia #GlowingSkinTips #AhmedabadSkincare #SkincareIndia
```

Alt text for this Reel cover: `Woman applying GLOWAMOUR night cream for glowing skin at night`

E. What to AVOID (hurts trust + discovery)

- ❌ Keyword stuffing: repeating “night cream glowing skin night cream” 10x.
- ❌ Same caption + same hashtags on every post (looks spammy, Instagram may show to fewer people — **RHnRUA EeNRU=•ALEagc**
- ❌ Misleading claims to chase keywords: “removes dark spots in 3 days”, “fairness cream”, “dermatologist **•nnŁE=Ri sra2RNN wEr W•=ŒEjU NRR 8L2R ,3gc**
- ❌ Buying SEO services that promise “#1 on Instagram search” — no one can guarantee this.
- ❌ Hiding keywords in tiny text or hashtag clouds — no ranking benefit, hurts readability.

✅ Done Checklist for File 02

- [ ] Display Name + Bio contain “Night Cream” + “Glowing Skin” + “India/Ahmedabad”
- [ ] Brand hashtags `#Glowamour` + `#MyGlowamour` created (post 1x to seed them)
- [ ] Every new caption uses Template D + 3-5 hashtags + location (70%) + alt text
- [ ] Gujarati lines added naturally in 30% of captions (with English transliteration)
- [ ] Keyword bank updated weekly from real customer DMs

03 — Profile Layout, Pinned Posts & Trust System for GLOWAMOUR

> New visitor psychology (expert model): In 7 seconds they decide — *What is this? Is it for me? Can I trust it? How do I buy?* Your grid + pins + Highlights must answer all four without DMing you.

1. Grid Layout — What a visitor should see

Top row (most important): 3 PINNED posts — Instagram lets you pin 3 posts/Reels to the top. They stay there.

Pin 1 — START HERE / What is GLOWAMOUR? (Reel, 30-45 sec)

- Title cover: `What is GLOWAMOUR? ✨`
- Script: "GLOWAMOUR is a skincare brand from Ahmedabad. Our first product is a Night Cream for daily glow. Here's who it's for, how to use it, price, and how to order on WhatsApp. DM GLOW."
- Caption includes: price hint, COD, WhatsApp CTA, keywords.
- Why: Converts curious → informed in 1 tap.

Pin 2 — HOW TO USE + Who it's for (Carousel, 6-8 slides)

- Cover: `How to Use Night Cream (2 Mins)`
- Slides: 1) Who it's for (skin types — only what you confirm) 2) When (night after face wash) 3) How much (pea-sized) 4) Steps with photos 5) Patch test note 6) FAQs teaser 7) Price + How to order 8) CTA
- Why: Removes #1 hesitation ("Will it suit me? How do I use it?").

Pin 3 — PROOF / FAQs + Ordering (Carousel or Reel)

- Cover: `Price • COD • Shipping • FAQs`
- Content: Honest FAQs — price, sizes, COD, shipping cities/time, returns, how to contact. If you have 0 reviews yet, say: "We're newly launched from Ahmedabad — here's how we protect first buyers: COD, clear ingredients, WhatsApp support."
- Why: Replaces fake social proof with transparency.

Rest of grid — 3-column rhythm (repeat):

- Column 1: Product / Sales (jar shots, texture, routine demo)
- Column 2: Education (tips, myths, concerns)
- Column 3: Trust / Human (packing orders, founder story, behind-scenes, customer Q&A with permission)

Visual rules (low-budget, high-trust):

- Same 2-3 background colors (e.g., cream + soft pink + white). Natural daylight near window. No heavy filters that change skin tone (hurts trust + may violate honest advertising).
- Every Reel cover: large text (min 60pt), 3-5 words, high contrast, logo tiny in corner.
- No stock photos of foreign models as "results". Use real product + real hands/founder. If using model, label clearly.

2. Story Highlights — Your Shop + Help Desk (9 Highlights)

Confirmed: Highlights stay on profile, each holds up to 100 Stories. Titles ~10 chars visible — keep short. Covers 1080×1920.

Create in this order (priority):

1) Shop (MOST IMPORTANT)

- Story 1: Product lineup (Night Cream jar, sizes, price)
- Story 2: What's inside / who it's for (only confirmed facts)
- Story 3: Price + COD + how to order (WhatsApp button demo screen recording)
- Story 4: "DM GLOW to order" sticker + link sticker to WhatsApp
- Update whenever price/offer changes.

2) How to Use

- Night routine steps (face wash → pea-sized cream → massage → sleep)
- How much to use (photo coin comparison)
- Morning after (face wash)
- Patch test: "Apply small amount on jawline, wait 24 hrs. Stop if irritation. This is general info, not medical advice."
- Frequency: daily night (unless your label says otherwise)

3) FAQs ?

- Price? Sizes? COD? Shipping time? Which cities? Sensitive/oily skin? Men can use? Age? Expiry/shelf life? Where made?
- Use Question sticker weekly: "Ask us about night cream" → save answers here.

4) Reviews

- **Do NOT invent reviews.** Until you have real ones:
  - Story 1: "We're newly launched — here's our promise instead: COD, clear ingredients, WhatsApp support, easy contact."
  - Story 2: Early-buyer program: "First 50 buyers: share honest feedback (good/bad) and get X. We post only with permission."
- When real feedback comes: screenshot DM/WhatsApp (blur phone numbers, get written "Yes, you can post"), add date + context. Never edit words to sound better. Mix short + detailed. Add video unboxings (with permission).

5) Shipping

- Where you ship (e.g., All India / Gujarat first?), courier partner (if any), dispatch time (e.g., 24-48 hrs), delivery estimate (3-7 days), COD fee if any, how tracking is shared, what to do if parcel delayed/damaged (contact within X days with unboxing video).

6) About

- Founder story (30 sec selfie video: who you are, why GLOWAMOUR, Ahmedabad roots, promise). Face = trust for new Indian brands.

- Made in India details (city, small business). Values: simple routine, honest info, no fake claims.

7) Kesar Soap (Coming Soon — builds waitlist)

- "Our next product: Kesar Goti Soap (કેસર ગોટી સાબુ). Still in development. Join waitlist." + Google Form link sticker.
- Behind-scenes: soap trials, packaging ideas, polls ("What size do you want? 75g / 125g?"). Polls = engagement + research.

8) Offers

- Only real offers with dates + terms. E.g., "Launch offer till [date]: Free shipping in Gujarat on prepaid." Never fake MRP strike-through or countdown that resets daily (hurts trust, may breach ad norms).
- If no offer: "No fake sales here. Follow for launch offer of Kesar Soap." Honesty > pressure.

9) Contact

- How to reach: WhatsApp hours, DM hours, email, response time ("We reply within X hours, Mon-Sat 10-8"). What to send for faster help (order date + payment screenshot + address). Gujarati/Hindi/English support note.

Highlight covers: Simple icons + text, same colors as logo. Free: Canva "Instagram Highlight Cover" 1080×1920. Keep titles short so they don't truncate.

---

3. Trust Checklist — What you MUST publish (and what's missing)

Publish these ASAP (non-negotiable for skincare sales in India):

- [ ] Full ingredient list (INCI + common names) — photo of label + typed list in caption/Highlights.
- [ ] Net quantity, MRP (incl. taxes), Mfg date / Expiry / Batch, How to store.
- [ ] Skin types + age group + patch-test note. If "for all skin types" — be sure; otherwise list exclusions (e.g., "not for broken/irritated skin; stop if irritation; not medical treatment").
- [ ] How to use + how long one jar lasts (approx).
- [ ] Price, COD availability + fee, shipping charges + timelines + return/replacement policy (damaged/wrong item).
- [ ] Business contact: WhatsApp, email, city, hours, response time.
- [ ] Real product photos: jar front/back, texture swatch, box, manufacturing seal. No beauty filters on product.

Clearly MISSING right now (you must confirm — I did not assume):

1. Ingredients, % of actives (if any), veg/cruelty-free status?
2. Mfg by / Marketed by, address on label, licences (Ayush/Cosmetic licence if applicable)?
3. Price, sizes, shelf life?
4. COD + shipping + returns?
5. Skin-type suitability + warnings?
6. Any lab tests / dermat review? If none, say "Not clinically tested — we share full ingredients so you can decide / patch test."

What NOT to do (protects you legally + trust-wise):

- ❌ Don't invent: testimonials, "1000+ happy customers", "dermatologist recommended", "clinically proven",

“removes pigmentation in 7 days”, “FDA approved”, star ratings.

- ❌ Don’t promise fairness/whitening, permanent removal, or disease treatment (acne cure, eczema cure). **?NR N•jR 2•aOr•OR+ □jEU ir22fi2EE&LaO0N3EH • SELNArUL6RiOdO20 2EE&□0 □WR2nN N&La 2EERNc2AN □ =•Uw0 n•AtW ARNA0 tEaNLNEARaRU5 NraNRRa La i•wALSRc□**
- ❌ Don’t use before/after with different lighting/angles/filters. If you ever post progress: same light, same **•aO2R0 N•SR ALSR O•n iLNt2ENRi0 dLAW tEaNRaA0 aEAORULSn2LRic**
- General info only, not medical advice. Encourage consulting a dermatologist for persistent concerns.

> Expert note, not legal advice: India’s ASCI + cosmetic labelling norms expect honest, substantiated claims. When in doubt, under-claim and over-inform.

✅ Done Checklist for File 03

- [ ] 3 pins live (What is / How to use / Price-FAQs)
- [ ] 9 Highlights created with covers + at least 3 Stories each
- [ ] Ingredients + price + COD + shipping + contact published
- [ ] Zero fake claims/reviews; patch-test note added
- [ ] Grid follows Product / Education / Trust rhythm

04 — Target Audience + Algorithm + Content Strategy for GLOWAMOUR

PART A — Target Audience Research (India-first, Gujarat-focused)

> Labels: **Researched pattern** = widely observed in Indian D2C skincare buying (COD preference, WhatsApp ordering, ingredient awareness rising, price sensitivity, trust barrier for new brands). **Hypothesis to test** = my educated guess for GLOWAMOUR specifically — validate via polls, DMs, Insights.

Segment 1 — Everyday Glow Seekers (Women 22-38, Ahmedabad + Gujarat cities)

- **Researched pattern:** Want simple routine, dullness/uneven look, tired skin from sun/pollution/late nights. First question: "Will it suit my skin? How to use? Price? COD?"
- **Problems they want solved:** Dull-looking skin, dryness at night, rough texture, need for easy daily habit.
- **Content they love:** 30-sec night routines, texture videos, "how much to use", honest FAQs, packing/real-brand behind-scenes.
- **Hesitations:** New brand fear ("Is it safe? Will I react? Will I get delivery?"). Counter with: full ingredients, patch-test guidance, COD, Ahmedabad address, WhatsApp support, real unboxings.
- **Info that helps purchase:** Ingredients, skin-type fit, price + COD + delivery time, how long jar lasts, contact for doubts.
- **Hypothesis to test:** Gujarati captions + founder face will lift saves/shares in this segment vs English-only faceless posts.

Segment 2 — Bridal / Pre-Bridal & Festive Glow (Women 21-30, Gujarat)

- **Researched pattern:** Searches spike before weddings/festivals (Diwali, Navratri, wedding season). Wants "glow for functions" but scared of last-minute reactions.
- **Questions:** "When to start before function? Can I use daily? What if I have sensitive skin?"
- **Content:** "4-week simple night routine before wedding/festival (patch test first)", "What NOT to try 3 days before function", guest/family gifting angle.
- **Hesitations:** Fear of reaction before big day. Counter: start early + patch test + honest "no overnight miracle" messaging.
- **Hypothesis to test:** Navratri/Diwali/Shadi content in Sept-Feb will outperform generic tips for reach in Gujarat.

Segment 3 — Busy Working Women & Young Moms (24-40)

- **Researched pattern:** No time for 7 steps. Want 2-min night habit. Often oily-combo or dry due to AC/sun. Buy on phone at night (ironic + true — post Reels 8-11pm).
- **Questions:** "Is 1 product enough at night? Can I skip serum? Will it feel sticky?"
- **Content:** "2-minute night routine for working women", "pea-sized demo", "morning after" realistic videos.

- **Hesitations:** Stickiness, time, price-per-month. Counter: texture close-ups, cost-per-day math (e.g., "If jar lasts ~X weeks, ~₹Y/day" — only with real numbers).

Segment 4 — Natural / Kesar / Ayurveda-curious Buyers

- **Researched pattern:** Rising interest in kesar/saffron, aloe, ubtan, ayurvedic positioning — but also skepticism after many fake "herbal" claims.
- **Questions:** "Is it really kesar? What %? Is it ayurvedic certified? Full ingredients?"
- **Content:** Ingredient spotlights (only true facts), label reading 101, "What kesar can/can't do" honest explainer, Kesar Goti Soap journey polls.
- **Hesitations:** Fake-natural fear. Counter: show label, INCI list, Mfg details, don't overclaim. If NOT ayurvedic-licensed, don't call it ayurvedic.
- **Hypothesis to test:** Honest "what this ingredient does + doesn't do" will build more trust (saves + follows) than hype claims.

Segment 5 — First-time Online Skincare Buyers (Small-city Gujarat + price-cautious)

- **Researched pattern:** COD + WhatsApp + Gujarati support + low-risk first order drive conversion. Often buy after seeing packing videos, owner face, clear return policy.
- **Questions:** "COD available? Delivery to my town? Return if damaged? How to order without website?"
- **Content:** "How to order on WhatsApp in 30 seconds" screen recording, "How we pack your jar" video, "What happens after you DM GLOW" flowchart Reel.
- **Hesitations:** Money stuck, fake page. Counter: COD, tracking on WhatsApp, real address/city, consistent posting (abandoned page = red flag).

Segment 6 — Men (early, secondary — don't target heavily yet)

- **Researched pattern:** Men's night-care interest growing but small vs women for glow creams. Keep inclusive ("for men & women" only if true) but don't split content 50/50 early.
- **Hypothesis to test:** 1 Reel/month "Can men use night cream?" FAQ may unlock incremental buyers without diluting core audience.

What NOT to do: Don't stereotype ("all Gujarati women want fairness", "all brides want X"). Ages/needs vary. Let polls + DMs + Insights refine this monthly.

Validation plan (free):

- Weekly Stories poll: skin type? sticky vs light? Gujarati vs English captions? Price comfort?
- Track: which segment's Reels get most non-follower reach + profile visits + "GLOW" DMs. Double down.

PART B — Instagram Algorithm & Organic Growth (Simple English)

> **Confirmed (Instagram "How Ranking Works" + Creator guidance):** Each surface (Feed, Stories, Explore, Reels) ranks separately. Instagram predicts what YOU are likely to do (watch fully, like, save, share, comment, visit profile, follow) based on your past activity + post info + poster info + your history with that poster. For non-followers (Explore/Reels), it leans heavily on: what the viewer watched before + how the post performed with similar viewers (watch time, likes, shares, saves).

What matters where (Confirmed + expert interpretation)

Reels (your #1 non-follower reach lever):

- **Watch time / completion:** Did people watch till end or rewatch? Keep 20-35 sec, hook in 0-3 sec, payoff at end, loop-friendly ending.
- **Shares + Saves:** "Send to friend / Save for night routine" > generic likes. Make saveable (routine steps) + shareable (tag sister/friend).
- **Originality:** Original video + your voice/text > reposted watermarked clips. Instagram has said it downranks visible recycled watermarks.
- **Topic clarity:** Say/show keywords ("night cream for oily skin") so IG knows WHO to show it to.
- **Trial Reels (Confirmed feature):** You can post a Reel to non-followers first to test (look for "Trial" toggle on Reel creation). Use it for 1 test/week.

Feed / Carousels (your trust + saves lever):

- Carousels get multiple chances (if viewer skips slide 1, IG may show slide 2 later — expert observation). Great for How-to, FAQs, myths.
- Saves signal "useful". Write save-worthy last slide: "Save this night routine ✨".

Stories (your relationship + sales lever):

- Shown mostly to followers + close connections. Ranking leans on recency + interaction history. Use daily: polls, questions, countdowns, link stickers to WhatsApp.
- Stories don't directly grow non-followers much, but they convert followers → buyers.

Explore / Suggested:

- Extension of Reels logic: if your Reel holds similar viewers (e.g., Indian skincare watchers), IG tests it to more of them. Niche consistency ("night cream + Indian skin + Gujarat") helps IG find your crowd faster than random viral trends.

What YOU control (do this) vs what you DON'T

Control:

- Hook, length, clarity, originality, posting consistency, niche focus, captions with keywords, covers, CTAs, replying to comments/DMs fast, removing spam, collabs, location tags, alt text.

Don't control / Don't chase:

- Exact reach numbers, virality, "best time" universal hack, hashtag flooding, follow/unfollow, pods, buying views. Instagram explicitly discourages inauthentic engagement and it attracts wrong followers who never buy.

Realistic expectations (no guarantees):

- New brand accounts often see 200-2000 views/Reel in first 30-60 days with consistent niche posting — sometimes less, sometimes a breakout. Success = rising NON-FOLLOWER reach + profile visits + "GLOW" DMs, not just follower count. If reach is flat after 30 posts, we diagnose (Part D in File 06), not panic.

Growth flywheel for GLOWAMOUR

```
Niche Reel (night cream + Indian skin concern)
  → Right non-followers watch/save/share
    → Profile visit (clear Name/Bio/Pins/Highlights)
      → Follow + DM "GLOW" / WhatsApp tap
        → Purchase + permission-based review
          → New proof content → more reach
```

PART C — Content Strategy (Balances Reach + Trust + Sales)

5 Pillars (rotate weekly — % of posts)

1. **EDUCATE (35%)** — Problems + routines + myths. Goal: saves + shares + non-follower reach.
   - "How much night cream to actually use", "Night cream vs moisturizer", "3 mistakes with night cream", "Patch test in 20 sec", "Oily skin night routine (2 mins)".
2. **DEMONSTRATE (25%)** — Product in action. Goal: desire + clarity.
   - Texture close-up, jar opening ASMR, pea-sized demo, night routine POV, packing orders, "what's inside the box".
3. **TRUST (20%)** — Human + honest. Goal: follows + DMs.
   - Founder story, Why Ahmedabad, label reading, ingredient list explained, "What we DON'T claim", Q&A answers, behind-scenes, customer questions (blurred, with permission).
4. **SELL (15%)** — Direct offer. Goal: WhatsApp taps.
   - Price + COD + how to order, "DM GLOW" Reel, offer (only real), Kesar Soap waitlist, festive gifting.
5. **ENGAGE (5%)** — Conversation. Goal: comments + Stories replies.
   - Polls, "Rate your night routine 1-5", "Gujarati or English captions?", "What should our soap smell like?"

Formats — what to use when

- **Reels 20-35s:** All Educate + Demonstrate + Sell hooks. Face or hands + voiceover + big subtitles (many watch muted — Confirmed behavior).
- **Carousels 6-8 slides:** How-tos, FAQs, myths, routines. Slide 1 = hook + keyword, Slide 8 = CTA + "Save + DM GLOW".
- **Stories daily (3-5/day):** Morning poll → afternoon behind-scenes → night Q&A/link. Save best to Highlights.
- **Live 1x/month (after 30 days):** "Ask us about night cream" 20-min Q&A. Repurpose clips as Reels.
- **Broadcast Channel (optional later):** "GLOWAMOUR Insider" for offers + early soap access. Only after 500+ engaged followers.

Caption formula (every time)

```
Line 1: HOOK + keyword (before ...more)
Lines 2-4: Value / steps / story
Lines 5-6: Who it's for + how to use + honest note (patch test)
Last line: ONE CTA → DM "GLOW" / Comment "GLOW" / Save this / Tap WhatsApp
Hashtags: 3-5 (File 02 sets)
+ Location: Ahmedabad (70%) + Alt text
```

CTA bank (rotate, one per post)

- Sales: `DM "GLOW" for price + COD details 💬` / `Comment "GLOW" and we'll DM you` / `Tap WhatsApp button to order 🛍️`

- Growth: `Save this routine ✨ + Share with someone who skips night cream` / `Follow @glowamour.in for simple Indian skincare`
- Research: `Poll in Stories: oily or dry skin? Vote so our next Reel helps you`

Content rules (protects reach + trust)

- Post 4-5x/week (e.g., Mon Reel, Tue Carousel, Thu Reel, Sat Reel, Sun Stories-heavy). Consistency > daily burnout.
- 80% evergreen (routines, FAQs) + 20% timely (festivals, soap launch). Evergreen = repostable.
- Original audio or trending audio LOW volume under your voiceover. Never let trend drown your message.
- Subtitles ON every Reel (CapCut auto-captions free). Hook text ON screen 0-1 sec.
- No medical promises, no filters that fake skin, no stock “results”. Disclose “results vary”.
- Repurpose: Every Reel → 1 Carousel (screenshots) + 3 Stories (poll/Q&A/clip) + 1 WhatsApp status. One shoot = 5 assets.

Weekly rhythm (low-budget, phone-only)

- **Mon:** Educate Reel (problem → tip → product mention soft)
- **Tue:** Stories Q&A (collect next Reel ideas)
- **Thu:** Demonstrate Reel (texture/routine/packing)
- **Sat:** Trust/Sell Carousel or Founder Reel
- **Daily:** 3-5 Stories (poll + behind-scenes + link)
- **Sun:** Rest + reply + plan + check Insights (File 06)

05 — 30-Day Low-Budget Content Plan for GLOWAMOUR

> Phone-only. No ads. No studio. 16 Reels + 8 Carousels + Daily Stories. Each item: Hook + Script beats + Caption CTA + Cover text + Keywords. Shoot in batches (4 Reels per Sunday).

Batch kit: Window daylight, white bedsheet backdrop, phone tripod (or stack books), jar + box + spoon, face wash, mirror, watermark-free editing in CapCut / Instagram Edits. Subtitles ON. 1080×1920 vertical.

WEEK 1 — Launch + Clarity (Goal: profile understands you)

Day 1 — PINNED Reel #1: What is GLOWAMOUR? (30s, founder face)

- Cover: `What is GLOWAMOUR? ✨`
- Script: "Namaste! I'm [Name] from Ahmedabad. This is GLOWAMOUR Night Cream — one simple night step for dull-looking, tired skin. Pea-sized, every night after face wash. COD available. DM GLOW for price." + jar close-up + WhatsApp button screen demo.
- Caption CTA: `DM "GLOW" for price + COD 💬` | Keywords: night cream for glowing skin, skincare india, ahmedabad
- Alt: `Founder holding GLOWAMOUR night cream jar in Ahmedabad`

Day 2 — Carousel: How to Use (PINNED #2)

- Slides: Who it's for → When → How much (pea photo) → 4 steps → Patch test → How to order. Cover: `Night Cream in 2 Mins`
- CTA: Save + DM GLOW.

Day 3 — Reel: Texture close-up (no face needed, 15s)

- Cover: `Real Texture, No Filter`
- Shots: Open jar → swatch on hand → massage → sheen. Text: "Lightweight / Non-sticky look / Pea-sized enough" (only if true). Voiceover: "This is the actual texture — no filter."
- CTA: Comment "TEXTURE" if you want routine video.

Day 4 — Stories: Poll "Your skin type? Oily/Dry/Combo/Sensitive" + Q box "Ask about night cream" → Save to FAQs.

Day 5 — Reel: How much to use (Educate, 25s)

- Cover: `Stop Using Too Much!`
- Script: Show pea vs coin vs spoon. "More cream ≠ more glow. Pea-sized is enough. Extra just wastes jar." End loop: "Save this before tonight ✨"
- CTA: Save + Share with sister/friend.

Day 6 — Carousel (PINNED #3): Price • COD • Shipping FAQs

- Cover: `Price • COD • FAQs`

- Slides with REAL numbers only. If not finalized, write: “Price reveal Day 8 — Follow + DM GLOW for early link.” Never fake.

Day 7 — Rest + Reply + Insights check. Answer every comment/DM. Note best hook.

WEEK 2 — Education + Trust (Goal: saves + shares from non-followers)

Day 8 — Reel: Night cream vs Moisturizer (myth-bust, 30s)

- Cover: `Night Cream vs Moisturizer?`
- Script: “Both moisturize. Night cream = your night step after face wash. Moisturizer = can be day/night. You don’t need 5 products to start. One consistent night habit beats 10 random products.” + demo.
- CTA: Save + Follow for simple routines.

Day 9 — Reel: 2-min Night Routine POV (Demonstrate)

- Cover: `2-Min Night Routine` 🌙
- POV hands: face wash → pat dry → pea cream → massage → sleep. On-screen timer. Voiceover in English + 1 Gujarati line: “દરરોજ રાત્રે, ફક્ત 2 મિનિટ” (every night, just 2 mins).
- CTA: Comment “ROUTINE” for steps in DM.

Day 10 — Carousel: 5 Mistakes with Night Cream

- Cover: `5 Night Cream Mistakes`
- Slides: Too much / On dirty face / No patch test / Expecting 2-day miracle / Skipping daytime sunscreen + face wash. Last: “Save + DM GLOW for routine help.”
- Keywords: how to apply night cream, night skincare routine india.

Day 11 — Stories: Behind-scenes packing + “How we pack your jar” video + countdown to price reveal if pending.

Day 12 — Reel: Founder Story (Trust, 35s, face)

- Cover: `Why I Started GLOWAMOUR`
- Script: Who you are, Ahmedabad roots, why simple night cream first, promise (full ingredients, COD, honest replies, no fake claims). End: “Ask me anything in comments.”
- CTA: Comment your skin concern (1 word).

Day 13 — Reel: Patch Test in 20 sec (Trust + Safety)

- Cover: `Patch Test First!`
- Demo jawline dab + “Wait 24 hrs. Stop if redness/itching. This is general info, not medical advice. See dermatologist for persistent issues.”
- CTA: Share with someone trying new skincare.

Day 14 — Live or Q&A Stories: Answer top 5 DMs on video. Save to FAQs + How to Use.

WEEK 3 — Desire + Ordering (Goal: profile visits → DMs)

Day 15 — Reel: What’s Inside the Box? (Unboxing)

- Cover: `What You Get` 📦

- Unbox: jar + seal + thank-you card + how-to card. Show seal = trust. State net qty + MRP on label close-up.
- CTA: DM GLOW to order / Tap WhatsApp.

Day 16 — Carousel: Who Is It For? (Honest fit)

- Cover: `Is It For You?`
- Slides: Best for [confirmed types] / How to check (patch test) / When to avoid (broken skin, irritation — see derm) / Men/women? Age? / Still unsure? DM skin type, we'll guide honestly (even if answer is "don't buy yet").
- Why last line wins: honesty converts fence-sitters.

Day 17 — Reel: How to Order on WhatsApp in 30 sec (Screen recording)

- Cover: `Order in 30 Sec` 🛍️
- Steps: Tap link → WhatsApp opens → Send "GLOW" → We share price + COD + address format → Confirm → Tracking on WhatsApp. Gujarati subtitle: "WhatsApp પર ઓર્ડર કરો".
- CTA: Try it now — link in bio.

Day 18 — Stories: Poll "COD or Prepaid?" + "Which city should we ship first after Ahmedabad?" + Waitlist form for Kesar Soap.

Day 19 — Reel: Morning After (Realistic, no fake before/after)

- Cover: `The Morning After` 🌅
- Night clip → sleep → morning face wash → moisturized look. Say: "No filter. No miracle claim. Just a consistent night habit + face wash + sunscreen in day. Results vary."
- CTA: Save this routine.

Day 20 — Reel: Label Reading 101 (Ingredient honesty)

- Cover: `Read Any Label in 30s`
- Show YOUR label: net qty, MRP, mfg/exp, ingredients, how to use, marketed by. Teach: "If a brand hides this, ask why." Only show true info.
- CTA: Comment "LABEL" for our full ingredient list DM.

Day 21 — Rest + Repurpose: Turn best Reel into Carousel + 3 Stories. Reply all.

WEEK 4 — Proof + Next Product (Goal: trust flywheel + waitlist)

Day 22 — Reel: Packing Real Orders (or Prep if 0 orders yet — be honest)

- Cover: `Packing With Care` 🤍
- If 0 orders: "No orders yet — here's how we'll pack yours" + show materials. Honesty > fake "100 orders today".
- CTA: Be our first 50 — DM GLOW.

Day 23 — Carousel: FAQs Part 2 (from real DMs)

- Cover: `You Asked, We Answered`
- 6 Qs from Stories/DMs (with permission, blurred numbers). End: "Ask more — we answer daily."

Day 24 — Reel: Kesar Goti Soap Teaser (Coming Soon)

- Cover: `Kesar Soap Coming` 🧼

- Show trials/notes/polls, NOT fake final bar if not ready. “We’re testing Kesar Goti Soap (કેસર ગોટી સાબુ). What size? 75g or 125g? Vote in Stories. Join waitlist — link in bio.”
- CTA: Comment “KESAR” for waitlist link.

Day 25 — Stories blitz: Soap polls (size, fragrance mild/strong, price comfort) + “Name our soap?” engagement.

Day 26 — Reel: Gujarati Routine (Bilingual trust-builder)

- Cover: રાત્રે 2 મિનિટ ✨ 2 Mins
- Full routine with Gujarati voiceover + English subtitles. “દરરોજ રાત્રે મોં ધોઈને, વટાણા જેટલી ક્રીમ લગાવો” (wash face nightly, apply pea-sized cream). End English CTA.
- CTA: Share with family in Gujarat 🤍

Day 27 — Reel: What We DON’T Claim (Trust differentiator)

- Cover: What We DON’T Promise
- Script: “We don’t promise 3-day fairness, spot removal, or dermatologist tag we don’t have. We promise: full ingredients, honest guidance, COD, and replies. Skincare is consistency + sunscreen + patch test.”
- CTA: Follow if honest skincare matters to you.

Day 28 — Carousel: Month 1 Learnings + Thank You

- Cover: Month 1, Honestly 🤍
- Slides: What we posted, top questions, what we improved (packaging/replies), what’s next (soap), thank you + CTA to join waitlist.

Day 29-30 — Buffer + Shoot next batch. Analyze Insights (File 06). Double down on top 3 Reels: repost with new hook, new cover, new first 2 sec.

Repurposing Map (1 shoot = 5 assets)

- Long routine Reel → Cut 7-sec texture loop + Carousel steps + Stories poll (“Do you do this step?”) + WhatsApp Status + FB crosspost.
- FAQ Reel → Caption becomes blog/Notion FAQ + Highlight Story + Pinned comment.
- Founder Reel → 15-sec cut for Ads later (only with budget + winning organic proof).

Hooks Bank (first 2 seconds — swap to revive weak posts)

- “Stop using night cream like this…”
- “Pea-sized is enough — here’s proof”
- “New from Ahmedabad: …”
- “If your skin looks dull at night, …”
- “Read this before buying any night cream”
- “2-minute routine, no 10 steps”
- Gujarati: “દરરોજ રાત્રે ફક્ત 2 મિનિટમાં…” (In just 2 mins every night…)

06 — Analytics, Diagnosis & Prioritized Implementation Checklist

PART A — How to Use Instagram Insights (Simple English)

> Insights = Instagram's free report card for Business accounts. It tells you: Who saw you? Did they care? Did they visit/DM/buy?

How to open:

- Profile → `≡ Menu → Insights` (or `Professional Dashboard → Insights`).
- Per-post: Open any Reel/Post → `View Insights`.
- Per-Story: Open Story → `Seen by → Insights icon`.

Check weekly (Sunday 15 min). Check monthly (1 hour deep dive). Don't check hourly — noise, not signal.

Metrics that matter for GLOWAMOUR (in priority order)

1. **Accounts Reached + Non-follower %** — Are NEW right people finding you? Goal: non-follower % rising on Reels (50-80% early is healthy for reach Reels; lower for follower-nurture posts).
2. **Reel Views + Watch Time / Avg Watch + Completion** — Did they stay? If avg watch <3 sec, hook failed. If drop at 50%, middle dragged. Rewatch = strong.
3. **Shares + Saves** — Strongest "useful" signals for skincare. Saves = routine/FAQ value. Shares = "send to sister/friend". Track per post, not just likes.
4. **Profile Visits + Follows from Content** — Did reach CONVERT? High views + low visits = weak hook-to-profile link (fix bio/pins/CTA). High visits + low follows = profile unclear (fix Name/Bio/Pins/Highlights).
5. **Link Taps / WhatsApp Button Taps** — Did they try to BUY? `Insights → Profile → Link taps / Contact button taps`. Low taps = CTA unclear or trust low.
6. **DMs + Comments with "GLOW"** — Your money metric. Count manually weekly (Instagram doesn't auto-report keyword DMs). `GLOW DMs per 1000 views` = conversion rate.
7. **Follower Growth (net, + demographics)** — Are followers from India/Gujarat, 18-44, interested in beauty? `Insights → Audience → Top cities/countries/age`. 500 right followers > 5000 random.
8. **Sales (outside Instagram)** — WhatsApp orders, COD confirmations, repeat questions. Log in a sheet: Date | Post that drove DM | Order? | City. This ties content → cash.

What to ignore early: Total follower count alone, likes alone, single-post virality, "best time" myths. One viral-but-wrong audience Reel (e.g., comedy trend) can hurt conversion — niche relevance > raw views.

PART B — Diagnose + Fix (No Guesswork)

Symptom	Likely cause	Fix (test 3 posts, then decide)
Low views (<200 after 48h, new account)	Weak hook, unclear topic, inconsistent niche, no keywords	New hook in 0-1 sec + keyword spoken/shown + cover text 3-5 words + Trial Reel test + keep niche (night cream/Indian skin) for 15 posts straight
High views, low saves/shares	Entertaining but not useful	Add saveable steps ("3 steps... Save before tonight") + share line ("Send to someone who skips night cream")
High reach, low profile visits	No curiosity to know brand	End card: "Follow @glowamour.in for simple routines" + Pin 1 strong + Name/Bio keyword clear + CTA in caption line 1
High visits, low follows	Profile unclear / no trust	Fix per File 01+03: Name, Bio A, 3 pins, 9 Highlights, grid rhythm, founder face, ingredients/price visible
Follows but no DMs/links	CTA weak / trust gap / price hidden	Every sales post ends "DM GLOW for price+COD" + Pinned comment same + Stories link sticker daily + publish price/COD/shipping
DMs but no orders	Price/shipping/COD unclear, slow replies, no COD	Reply <4 hrs (10-8), templated price+COD+-address format message, offer COD, share tracking, Gujarati/Hindi support
Good Reels, dead Stories	Stories too salesy / no stickers	3-5 Stories/day: poll → behind-scenes → Q&A/link. Face + captions. Save to Highlights
Random followers (abroad/spam)	Generic hashtags/trends, bought engagement	Cut generic tags/trends, use File 02 sets, remove obvious bots (followers → Remove), never buy followers

Testing rules:

- Change ONE thing at a time (hook OR cover OR CTA, not all).
- Test minimum 3 posts per change. One post = anecdote, three = pattern.
- Keep winners log: Hook | Topic | Length | Cover | Views | Saves | Visits | GLOW DMs. Re-shoot winners with new first 2 sec monthly.
- Use Trial Reels for risky tests (new topic, Gujarati-only) so followers don't get spammed.

PART C — PRIORITIZED IMPLEMENTATION CHECKLIST

> Order matters. Do Phase 1 today, Phase 2 this week, rest over 30 days. Check off as you go. Low-budget first.

☑ PHASE 0 — Decisions (30 min, needs YOUR answers)

[ ] Confirm hero ingredient story (kesar? natural? — with label proof)

[ ] Finalize price, sizes, COD fee, shipping charges + timelines + return policy

- [ ] Confirm skin-type fit + warnings + patch-test note (match label)
- [ ] Choose WhatsApp business number + email + hours + reply language (EN/HI/GU)
- [ ] Decide: new handle vs fix existing? List current handle if any
- [ ] Gather: 10 product photos (jar front/back, seal, texture, box) + 1 founder selfie video

✅ PHASE 1 — Profile Foundation (Today, 1 hour)

- [ ] Switch to Business + Public + Category `Beauty, Cosmetics & Personal Care` (Display ON)
- [ ] Claim username (`@glowamour` → `@glowamour.in` → ...) + keep consistent
- [ ] Set Display Name: `GLOWAMOUR | Night Cream for Glowing Skin`
- [ ] Paste Bio A + add links (WhatsApp #1 with prefilled "GLOW" text) + test all links
- [ ] Upload logo 1080×1080 (readable small) + Ahmedabad location + hours + 2FA ON
- [ ] Connect FB Page "GLOWAMOUR" (backup + future ads) + enable Reels→FB crosspost

✅ PHASE 2 — Trust Shell (Days 2-3)

- [ ] Create 9 Highlight shells with covers: Shop / How to Use / FAQs / Reviews / Shipping / About / Kesar Soap / Offers / Contact
- [ ] Publish in Highlights: ingredients photo, price/COD/shipping, how-to steps, patch-test note, contact/hours
- [ ] Shoot + post Pinned Reel #1 (What is GLOWAMOUR) + Pinned Carousels #2-3 (How to Use + Price/FAQs)
- [ ] Add brand hashtags `#Glowamour` + `#MyGlowamour` (seed with 1 post each)
- [ ] Write WhatsApp quick replies: Price list, COD info, Address format, Tracking, Gujarati version

✅ PHASE 3 — SEO Hygiene (Days 4-7, ongoing)

- [ ] Every caption: hook+keyword line 1 + value + honest fit note + ONE CTA (`DM "GLOW"`) + 3-5 hashtags (File 02 sets, rotate)
- [ ] Every Reel: spoken + on-screen keyword + subtitles + cover 3-5 words + alt text + location 70%
- [ ] Add 1-2 Gujarati/Hindi lines in 30% captions + 1 bilingual Reel/week
- [ ] Never: stuffing, 30 tags, generic tags, bought followers, watermarked reposts, fake claims

✅ PHASE 4 — 30-Day Content (Weeks 1-4, File 05)

- [ ] Week 1: Launch clarity (What/How/Texture/How-much/Price FAQs)
- [ ] Week 2: Education + Trust (vs moisturizer, 2-min routine, mistakes, founder, patch test)
- [ ] Week 3: Desire + Ordering (unboxing, who-for, WhatsApp order demo, morning-after, label reading)
- [ ] Week 4: Proof + Soap waitlist (packing, FAQs from DMs, kesar teaser, Gujarati routine, what-we-don't-claim)
- [ ] Daily: 3-5 Stories (poll + behind-scenes + Q&A/link) → save best to Highlights
- [ ] Batch shoot Sundays (4 Reels + 2 carousels) + reply to ALL comments/DMs <4 hrs (10-8)

✅ PHASE 5 — Measure + Improve (Weekly)

- [ ] Sunday 15-min review: Reach, non-follower %, saves/shares, visits, follows, link taps, GLOW DMs, orders
- [ ] Log in sheet: Post | Hook | Views | Saves | Visits | GLOW DMs | Orders | Learning
- [ ] Diagnose via table above, change ONE thing, test 3 posts
- [ ] Monthly: top 3 winners re-shot with new hook + audience check (cities/age) + keyword bank update from real DM words

[ ] After 30 posts + steady DMs: consider ₹200-500/day test ad ONLY on best organic Reel to Ahmedabad/Gujarat women 20-40 (optional, not required)

What You Can Do Immediately vs Needs Research/Access/Testing

Do immediately (no budget, no access needed): Phases 1-3 + Week 1 content with phone. **Needs YOUR info:** Prices, ingredients, labels, WhatsApp number, COD/shipping/returns, skin-type fit. **Needs testing (2-4 weeks data):** Best hooks, Gujarati mix %, Reel length, posting times for YOUR audience, which segment converts. **Needs account access (I can't do for you):** Creating/claiming handle, switching to Business, uploading logo, linking WhatsApp, posting. **Needs budget later (optional):** Domain, simple store (Shopify/Woo/Dukaan), label designer, small ad tests, influencer seeding (only micro, honest, with disclosure).

Final Note — How I Worked (per your rules)

- Personalized for GLOWAMOUR Night Cream + Kesar Goti Soap, India/Gujarat/Ahmedabad, Gujarati-inclusive — not generic advice.
- Separated **Confirmed Instagram guidance** vs **Expert recommendation** vs **Hypothesis to test**.
- Gave ready-to-use usernames, display names, bios, keywords, captions, hooks, 30-day plan, checklists.
- Simple English throughout; technical terms explained.
- No fake reviews, certifications, clinical results, or "guaranteed viral/rank #1/sales" claims.
- Flagged missing info + asked only 7 essential questions (in README). Reply and I'll tighten bios/captions/pricing messages for you.
